## SUMMARY

I am a machine learning engineer with a strong academic background in computer science and machine learning. I have experience working on diverse projects, from natural language processing to computer vision, and possess expertise in model development and deployment. I am committed to staying current with the latest advancements in the field and enjoy sharing knowledge through writing and speaking engagements. I am eager to collaborate on innovative machine learning projects.

## EXPERIENCE

### Technical Co-ordinator

Technical Team SIESGST May 2022 - Jun 2023

1. Advanced Technical Skills: During my time on the technical team, I honed my technical skills significantly. I gained proficiency in various programming languages, tools, and frameworks, which enabled me to tackle complex projects effectively.
2. Collaboration and Teamwork: Working closely with my teammates, I learned the importance of collaboration and effective communication. I became skilled at sharing ideas, troubleshooting issues, and leveraging the strengths of each team member to achieve common goals.
3. Problem-Solving and Adaptability: Technical challenges frequently arose, pushing me to become a more adept problem solver. I learned to adapt quickly to new technologies and environments, which proved invaluable in fast-paced projects.
4. Project Management: As a member of the technical team, I gained exposure to project management principles. I learned how to plan, prioritize, and meet deadlines, ensuring that our technical projects were executed efficiently and successfully.

### Systems Co-ordinator

SIESGST Jun 2023 - Present

1. Equipment Maintenance and Troubleshooting: You are acquiring skills in maintaining and troubleshooting AV equipment to ensure its reliable operation during events and presentations.
2. Event Management: Learning how to set up and manage AV equipment for various college events, including lectures, presentations, and meetings.
3. Technical Support: Providing timely technical support to faculty, staff, and students who require assistance with AV equipment, resolving issues efficiently.
4. Communication and Collaboration: Enhancing communication and collaboration skills by coordinating with event organizers, instructors, and technical teams to meet AV requirements effectively.

## EDUCATION

### Artificial Intelligence & Machine Learning

S I E S Graduate school of technology *Dec 2021 - Present*

### 12th

Lakshya Prep Junior College *Apr 2019 - May 2021*
